

Character name: Zavig

About your character

Zavig is the leader of the Mystic Zealots, a small team of elite warriors who defend their home kingdom from monsters. Zavig gained the title Dragon Knight for his ferocious, aggressive fighting style. He wields a scythe known as Talon and leads by example, charging headfirst into battle and slaying enemies mercilessly. His fellow Mystic Zealots have adopted the following battle strategy if Zavig is around, hang back and clean up what's left.

This reckless fighting style doesn't come without consequences Zavig is constantly straining the resident healers' resources due to all the damage he takes, and his eagerness for battle often means that the team finds themselves in battle before they have properly assessed the situation. Luckily, Zavig's pure brute force always sees them through.

Note Zavig's no-helmet battle sprite would not upload for some weird reason, so that version is in a zip file.
